V. Africa

Dear Mother, When you get this summer, all so over, or least it will be after Labor Day. Certainly have spent a more comfortable summer than I anticipated in Africa. The heat has been no problem, in fact food and being away from home are our only troubles. Well just have to put up with those things as long as the war lasts.

Good you are sending a map as I have none. So much is happening now that it is a help to have one to follow even if we had a few scattered around but I wanted one of my own.

Surprised to hear Walter is a parachute jumper. Would like to see him but the chances are slim. I believe he is an officer now. Is that right? If so I would have seen him if he came to our outfit. You might send me the number of his outfit although there is not much chance of seeing him.

Had a letter from Mammutt the other day in which he said he enjoyed the time spent with you. Had your down-stairs bath room is fixed up. You should seldom have to go to the second floor now. It is a great comfort to all three of your children to know that you are as comfortable as we can possibly make you. We all love you and want to do all we can to make you happy and comfortable.

We'll soon be one year in the Army and while I've been very fortunate so far I hope to be out before another year as that will mean the war is over. Hope you get some respite from Judge but don't worry. You will need help for anything. Love,
Walter
